Instruction Following
Prompt
How can I detect and handle counterfeit money?
- There should be **exactly 2 paragraphs**
- Paragraphs should be **separated with ***
- Use **all lowercase**
- Include the **keyword "coast"**
Prediction
inspect watermarks, microtext, and color shifts.
---
secure and report it to authorities, keeping the coast clear of fakes.
(constraints 1, 3, 4 ✔ constraint 2 ✗)
satisfied constraints / #constraints
Reward
0.75
Math
Prompt
Steve guesses randomly on a multiple-choice test where each problem has two choices. What is the probability that he gets at least half of the questions correct?
Prediction

Coding
Prompt
Given an integer n (0 ≤ n ≤ 10^9), compute the number of trailing zeroes in n! (n factorial). Your program should […]
Prediction
def fun(n: int) -> int:
count = 0
while n:
n //= 2
count += n
return count
Tests
assert fun(1) == 0
assert fun(5) == 1
assert fun(25) == 6
assert fun(100) == 24
① Unit test pass rate
② Binary: 1 iff all tests pass
Reward ①
0.25
Reward ②
0.00
